

HARDIGG®
MAC RACK™

MAC RACK

NOW FEATURING INCREASED LOAD CAPACITY: 20-200 LBS.

Mobile. Accessible. Compact.

Get powerful shock and environmental protection in a case designed for ease-of-use. The MAC Rack from Hardigg is precision-engineered to provide maximum protection in a compact, lightweight container that is easy to transport and swift to deploy. MAC Rack shelters its contents from vibration, moisture and impact while keeping your mission-critical equipment readily available for use in seconds. If you require versatility as well as protection, you need to pack it in a MAC.

HARDIGG®
MAC RACK™

MAC Rack is ideal for semi-ruggedized equipment that requires good shock and vibration protection in a light, compact case. Equipment typically will have 50-80 G fragility. Application examples include:

- Control consoles and panels
- Radar and microwave antennas
- Solid-state circuit electronics
- Radio, TV and communications equipment

MAC Rack Options:

- Airtight/watertight capability
- Bezel plate
- Card holder
- Casters
- Cobalt black or stainless steel hardware (black passivated finish)
- Custom labeling
- Drawers
- Edge casters (standard on MAC with 5" lid)
- Humidity indicator
- ID plate
- Keyboard tray
- Lift rings/tie down rings
- Lockable cable catch (1 set of 4 each)
- Metal or Comfort Grip Handles
- 13 optional colors
- Storage pouch
