

SPEEDSTER OPTION

Protection That Keeps Pace With You

Built-in, non-skid rubber wheels help transform the Speedster case into its own transport system.

The Anvil Speedster is the ideal option for the professional on the go. It transforms your case instantly into a self-contained transport case with little effort.

Available as an option on selected Anvil cases, the Speedster features a telescopic handle that locks into place for maximum control while rolling. The heavy-duty, built-in wheels are durable non-skid rubber.

Add convenience and efficiency to your next trip with the Anvil Speedster.

Compatible Models

▲ A.T.A. cases

▲ ArmorLite™ cases

(Note: Some size and weight limitations. Check with your Anvil Dealer.)
